ON

**Artificial Intelligence: Shaping the Future
of Education, Industry and Society**

24th & 25th April 2026

(In Hybrid Mode)

ABOUT ADITYA INSTITUTE OF MANAGEMENT - AIMS

Aditya Institute of Management – AIMS, located at Manaji Nagar, Narhe, Pune, is a reputed management institute committed to delivering quality education and fostering holistic student development. The institute is approved by AICTE under the Ministry of Education, Government of India and is accredited by NAAC.

AIMS offers an industry-oriented MBA program supported by experienced faculty, innovative teaching methodologies, and practical learning through case studies, research projects, internships, and industry interaction. The institute has strong corporate collaborations with many companies for internships and placement opportunities.

With modern infrastructure, a Wi-Fi enabled campus, mentorship programs, skill development initiatives, and strong placement support, AIMS focuses on preparing students to become competent, innovative, and industry-ready management professionals.

ABOUT THE CONFERENCE

The 1st National Conference – AIMS 2026 aims to provide a dynamic academic platform to explore the growing influence of Artificial Intelligence and emerging technologies across management and allied disciplines.

The conference invites scholars, academicians, researchers, industry professionals, and students from around the nation to present and discuss innovative ideas, research findings, and practical applications related to AI-driven transformation in business and society.

The conference promotes knowledge sharing, innovation, and meaningful collaboration between academia and industry at the national level, while encouraging responsible technology adoption and advancing research excellence.

SUB-THEMES

Artificial Intelligence: Shaping the Future of Education, Industry & Society

1. Smart Learning Systems and Personalized Education
2. Digital Transformation in Higher and Management Education
3. Learning Analytics and Intelligent Assessment Systems
4. Technology-enabled Teaching and Academic Administration
5. AI in Digital Marketing, Market Research, Retail Analytics and Social Media Analytics
6. Consumer Behaviour Insights through Predictive Analytics
7. Intelligent Customer Relationship Management Systems
8. Artificial Intelligence in Banking and Financial Services
9. FinTech Innovations and Intelligent Financial Systems
10. Fraud Detection and Financial Risk Analytics
11. Intelligent Talent Acquisition and Recruitment Systems
12. Workforce Analytics and Employee Performance Management
13. Technology-enabled Learning and Development
14. Future of Work in the Age of Artificial Intelligence
15. Smart Supply Chain and Logistics Management
16. Intelligent Production and Operations Planning
17. Data-driven Decision Making in Operations Management
18. Industry 4.0 and Digital Manufacturing Systems
19. Business Intelligence and Data-driven Decision Making
20. Data Governance, Security and Ethical Use of AI
21. AI-driven Startups and Digital Business Models
22. AI In Agriculture Management
23. Artificial Intelligence in Public Policy and Governance
24. Ethical, Legal and Social Implications of AI
25. Artificial Intelligence for Sustainable Development

*The list of topics is flexible, and authors may submit papers on any topic relevant to the conference theme.

OBJECTIVES OF THE CONFERENCE

- ▶ To provide a platform for sharing knowledge and research related to Artificial Intelligence.
- ▶ To explore the role of AI in transforming education, industry, and society.
- ▶ To encourage interdisciplinary research and collaboration between academia and industry.
- ▶ To discuss practical applications and emerging trends of AI in business and management.
- ▶ To promote the responsible and ethical use of Artificial Intelligence.

1ST NATIONAL CONFERENCE ON
ARTIFICIAL INTELLIGENCE: SHAPING THE FUTURE OF EDUCATION, INDUSTRY AND SOCIETY

CALL FOR RESEARCH PAPERS

Aditya Institute of Management invites original and unpublished research papers and case studies from academicians, industry experts, research scholars, and students from various disciplines. The conference seeks to create a dynamic platform for presenting and discussing innovative ideas, theoretical viewpoints, and practical insights related to the conference themes.

The conference invites original and unpublished research papers and case studies related Authors are encouraged to submit Extended Abstracts (200–250 words) followed by the full research paper for presentation at the conference.

GUIDELINES FOR RESEARCH PAPER SUBMISSION

- ▶ Full-length research papers will be reviewed by the Peer Review Committee.
 - ▶ Maximum Four authors are allowed per paper.
 - ▶ The manuscript should have a 1" margin on all sides and prepared in a 12-point font "Times New Roman", 1.5-line spacing.
 - ▶ Author needs to send their detailed correspondence address (Name/ Designation /Organization, Institution / e-Mail / Cell No., Tel.No.)
 - ▶ The references should be as per APA Style and submit it to aimsresearchpune@gmail.com
- All manuscripts will undergo plagiarism check (similarity <10%).

PUBLICATION OPPORTUNITY

Accepted and presented papers will be considered for:

1. Abstract of accepted papers after peer review will be published in the official conference proceedings.
2. Selected and presented papers will be published in reputed Peer Reviewed Journal with ISSN number & DOI.
3. Selected top-quality papers from conference will be invited for potential publication in Scopus/Web of Science indexed Partner Journals subject to further review and journal standards & Publication fees (if any)

REGISTRATION FEES

Category of Participants	Fee (Rs.)
Students	₹300
Faculty / Research Scholars	₹500
Industry Experts / Policy Makers	₹1000
Foreign Authors	\$100

Note: Publication charges are extra, payable by authors, and subject to journal guidelines and acceptance after peer review

IMPORTANT DATES

Abstract submission	: 15 th April, 2026
Confirmation of Abstract	: 17 th April, 2026
Last Date for full paper submission	: 22 nd April, 2026
Last date for Registration for conference	: 23 rd April, 2026
Dates of Conference	: 24 th & 25 th April, 2026

Report on 1st National Conference 2026 on “Artificial Intelligence: Shaping the Future of Education, Industry and Society”

In the The *1st National Conference 2026* on the theme “**Artificial Intelligence: Shaping the Future of Education, Industry and Society**” Dr. Vinod Kumar Murti- Founder and CEO of LyVi Learning was invited as *Chief Guest*, Dr. Roop Kishor Signal - Founder Director IPGRS was invited as *Guest of Honor* and Mr. Harshal Geet- Vice President, Morgan Stanley & Mrs. Divya Vadnere- Software Test Manager AMDPCS were invited as a keynote speakers

Dr. Sachin Borgave – Director, Pratibha Institute of Business Management, Pune was invited as *chief guest for valedictory function*.

The *1st National Conference 2026* on the theme “**Artificial Intelligence: Shaping the Future of Education, Industry and Society**” was successfully organized with the objective of exploring the transformative impact of Artificial Intelligence (AI) across various domains. The conference brought together eminent speakers, academicians, industry professionals, and students to discuss the rapid growth, opportunities, and challenges of AI in today’s world.

The conference began with an inspiring inaugural session, followed by expert talks from distinguished speakers who shared their valuable insights on Artificial Intelligence. The event provided a dynamic platform for knowledge sharing and highlighted how AI is becoming an integral part of education, industry, and society.

Dr. Vinod Kumar Murti delivered an insightful session on the evolution of Artificial Intelligence. He emphasized that AI began nearly 70 years ago and has rapidly evolved beyond human limitations. He explained that machines today are capable of performing tasks more efficiently than the human mind in certain areas. He highlighted the increasing importance of tools like ChatGPT, stating that industries are increasingly relying on such technologies to survive and grow in a competitive environment. He also discussed the

role of cloud computing and noted that investments in AI are growing at an accelerated pace. Furthermore, he introduced the concept of “Agnostic AI” in education, which enables personalized learning experiences for students and contributes significantly to societal development.

Dr. Roop Kishore Singhal shared his perspective on how AI is transforming everyday life. He compared the evolution of communication from traditional postal systems to modern email, illustrating the technological shift brought by AI. He emphasized that AI is not meant to replace humans but to assist them in improving efficiency and convenience. He highlighted the success of digital payment systems like Unified Payments Interface, which allows even illiterate individuals to perform financial transactions easily, making India a leader in digital payments. He also mentioned that some African countries are moving toward cashless economies inspired by such technologies. Additionally, he explained the role of AI in sectors like agriculture and decision-making platforms such as Policybazaar, where AI helps users make informed choices.

Mr. Harshal Geet highlighted the growing importance of AI in the corporate world. He stated that AI is not just a trend but the future of all industries. He elaborated on the role of AI in recruitment and selection processes, where it helps analyze employee behavior, evaluate candidates, and assist in interview decision-making. He pointed out that human judgment is often influenced by emotions and biases, whereas AI provides more accurate and data-driven decisions, thereby improving business efficiency.

Mrs. Divya Vadnere discussed AI as the evolution of software technology. She described AI as a strong partner to human beings and emphasized that working without AI in today’s digital world is almost impossible. She explained how AI plays a crucial role in employee retention, performance management, and decision-making processes. She also highlighted how online platforms are aggressively adopting AI to enhance efficiency and productivity, enabling organizations to manage operations with just a click.

Dr. Sachin Borgave concluded the valedictory function with an insightful speech by, who discussed the growing impact of Artificial Intelligence (AI) on education, industry, and society. He appreciated the participants and evaluators of the paper presentations and emphasized the importance of focus and patience in today’s fast-paced digital world.

Dr. Borgave highlighted society’s increasing dependence on mobile technology, especially among Generation Z, and addressed concerns about AI replacing jobs. He clarified that AI brings transformation, not the end of opportunities, and encouraged individuals to adapt, upgrade skills, and work alongside machines.

He noted that while AI excels in accuracy and repetitive tasks, it lacks human qualities like empathy and compassion. He also cautioned that over-reliance on AI may reduce cognitive development and intellectual effort.

In conclusion, he stressed that the future lies in human-AI collaboration rather than competition. The conference overall provided valuable insights into the role of AI in transforming education, enhancing industrial productivity, and contributing to societal development.

The conference also emphasized ethical considerations and the need for responsible use of AI.

Overall, the conference proved to be highly informative and impactful. It enhanced the understanding of participants regarding the vast potential of Artificial Intelligence and encouraged them to adopt AI-driven approaches in their respective fields. The event also fostered collaboration between academia and industry, paving the way for future innovations and research.

In conclusion, the *1st National Conference 2026* was a grand success, effectively highlighting the significance of Artificial Intelligence in shaping the future of education, industry, and society. The valuable insights shared by the speakers will inspire participants to embrace AI as a tool for growth, innovation, and sustainable development.
